17-10-2016

Prof. P. C. Thomas & Prof. (Dr.) K.T.

Johnson

- Note:-**
- 1) *During the 260 hours of Bridge Course, the basic principles of 1st year Physics, Chemistry, Mathematics / Biology will be taught. The course will (a) make regular school classes easier and (b) make them engaged in creative work during the vacation. It will not be a substitute for the school classes but a very good supplement.*
 - 2) *Hostel fee for the Bridge Course is Rs. 12000/-. Those who are joining Prof. P. C. Thomas Classes will have to take the crossed draft in favour of Prof. P. C. Thomas, payable at Thrissur. Those who are joining Chaithanya Hostels will have to take the crossed draft in favour of Chaithanya Classes, payable at Thrissur. Those who are joining Vijayagiri Hostels will have to*

take the crossed draft in favour of Vijayagiri Public School. Those who want hostel accommodation will have to join the hostel at the time of joining the Bridge Course.

Advantages of Bridge Course

- 1) Only those students who have undergone Bridge Course are eligible to apply for admission to our hostels at Thrissur. 150 Boys & 150 Girls joining the following schools can get selection to our hostels at Thrissur provided they score 70% marks or more in the Bridge Course on the basis of first come first served. The schools are

State Syllabus					
1	SAHSS, Kuttanellur			Boys & Girls	
2	Holy Family	Girls	3	St. Clare's	Girls
4	Sacred Heart	Girls	5	St. Thomas College HSS	Boys
6	St. Josephs	Boys	7	Holy Angels	Girls

CBSE Syllabus					
1	Nirmala Matha	Boys & Girls	4	St. Vincent Pallotti	Boys & Girls
2	BVB Poochatty & Pottore	Boys & Girls	5	St. Pauls	Boys & Girls
3	Chinmaya	Boys & Girls	6	Devamatha	Boys & Girls

- 1) After the SSLC examination the students get about 3 months before they join the next course. During this time the students engage themselves in multifarious activities which have negative effect on their future studies. They never exert their mind on studies. The effect is that they fall into a lethargic mood and are not able to restart their studies when the schools reopen for the 11th standard. Most of them find it difficult to work as hard as they were working upto SSLC examination. This is the reason why many top rankers of SSLC fail miserably at higher levels. You might have seen the Diesel engine of a train idling all the time when it halts at a station. It is not switched off. If switched off, it is difficult to restart. This is the reason why the engine idles throughout the halt at the station. In a similar manner if a student discards his studies for 2 or 3 months continuously he will find it difficult to restart. He must engage himself in some sort of useful studies. The most useful study will be of his 11th standard portions.
- 2) During these 1½ months he can go through the entire first year portions rapidly. It gives him sufficient knowledge to follow his 11th standard portions easily in his/her school.
- 3) It gives the Malayalam medium students a chance to get an acquaintance with English medium instructions. It will help them to follow their English medium text books easily.
- 4) It will also help the olympiad aspirants to get extra knowledge about important topics of 11th standard. They will have better chance of getting through the olympiad.
- 5) The students attempting IIT, JIPMER, AIIMS examinations get a prelude to these examinations during this bridge course.
