These devices are essential to access the digital learning materials and tools provided as part of the course enrolment.

Device Guidelines:

-  Only Android tablets are recommended as they support secure kiosk mode, which allows the device to run only the institute's learning app and approved tools.
-  These devices will be locked in kiosk mode to prevent distractions and misuse. Non-educational apps, calling functions, and messaging features will be disabled.
-  Students should not use their primary calling device for this purpose, as the calling functionality will be disabled during kiosk mode operation.
