### Ind session

During the month of July and August 2021

There will be 40 days +2 theory and entrance classes,dpp's linked to each plus two chapter and NEET/JEE Model Examination

### **SOME USEFUL TIPS FOR YOUR SUCCESS**

1. Set a goal in your life and be focused fully on studies
2. During holidays workout atleast 12 to 14 hrs including the 6 hours teaching session
3. Finish first round of your plus two theory and entrance prepration during these holidays and go for second round revision during the remaining period. This wil enable you to get a good score in the board exam and entrance exam
4. Always refresh your mind with happiness because effective registration of the theoretical concept will occur only if you keep your mind happy
5. Don't think that this is a herculean task, as you have to study different subjects, different chapters and different concepts. You might have studied in history that Baber,the mugal Emperor conquered India by conquering small states one by one
6. Fix up the concepts in your mind using some memory techniques like memory chain or mind mapping techniques of your own
7. Don't hesitate to clear your doubts. You can clear your doubts during the class through chatbox or, after the class through email or using phone call botim/whatsapp to your concerned teacher.
8. Your teacher is your "Guru" and all the teachers will help you and they will clear your doubts.
9. Remember you are the chief Architect of your success

Always remember there is "no substitute for hardwork and no short cut to success"

Wishing you god's grace in abundance
